AUTOMOBILES THROUGH NEWARK ON THE FAMOUS GLIDDEN TOUR AND THOUSANDS GREET THEM

Fifty-Eight Cars Pass Through the City and
Arrived in Coshocton in Time for
Lunch Without Serious Mishap

THE ONLY WOMAN DRIVER IS CHEERED

While One of the Tourists is Presented With a Handsome
Bouquet—Predicted That Many Cars Will Drop
Out at Canton Thursday Night.

Thursday was automobile day for Newark as the Glidden tourists passed through this city on their run from Columbus to Canton.

The two pilot cars, which leads the tourists, left Columbus at 5:15 and reached this city at 7:05 a. m. In the first car, a Red Premier, were R. F. McNamara, driver; M. C. Reeves, checker of cars, and H. L. Johnson, the latter scattering confetti along the road to guide the tourists who followed.

The second car, a Maxwell, was occupied by Del Lewis, secretary of the touring board, A. M. Reynolds, driver, and C. A. Krone.

The first car to reach the city after the pilots, was No. 99, the time being 8:20. It contained Chairman of the Touring Board Hower and Mr. Glidden, donor of the trophy, W. F. Winchester driver, O. D. Utley and A. Liederman, all of Buffalo.

The tourists entered the city on West Main street and went out on East Main. They were greeted by a number of local autoists and several thousand people scattered along Main street and around the south side of the square. Admirable police arrangements had been perfected by Acting Chief Bell but it kept the chief and his assistants busy keeping the crowd back of the course, and especially was this true near Wyeth's place on West Main where the Glidden people were scheduled to stop for gasoline.

Chief Bell had stationed Officer Brooke at Union and Main and Officer Callan at the Panhandle crossing, while the Chief had a force of officers along Main street. The speed limit was lifted and some of the cars took advantage of this fact and came along at a lively clip. At one time four cars were abreast near Wyeth's, each one striving to gain the lead. Owing to the vigilance of the officers, who kept the small inquisitive boys back, no accidents happened. Only four cars stopped in the city, two for gasoline, one to allow several in the party to get refreshments, and one to send a telegram.

Car No. 19, a Premier, driven by J. W. Moore, was the first to stop for gasoline. It contained besides the driver Harry L. Johnson, W. T. Walker and J. W. Gogan. The occupants were interviewed during their short stop of five minutes by an Advocate representative and was informed that the tourists were well pleased with the Ohio people, pronouncing them kind and loyal. Mr. Gogan stated that the first car left Columbus at 7:25, and that an average speed of 18 miles an hour was maintained throughout the trip. He further stated that the roads between Columbus and Newark were in very fair shape and that they expected to reach Canton about 4 o'clock in the afternoon. During the time the car stopped here Mr. Johnson was presented with a handsome bouquet of flowers by one of Newark's fair young ladies.

Car No. 76 was driven by Mrs. Ora W. Parker of New York. Her husband was on the seat beside her. Mr. Parker is a cousin of Dr. H. A. Postle of Black Hand, this county. The car went through without stopping, but Mr. Parker recognized the doctor and waved at him.

One of the cars got a hot box out on East Main street and was delayed for about a half hour. Car No. 195 met with an accident on the south side of the square and was delayed about ten minutes. One of the big cars struck a street car rail at the corner of West Main and Park place and did quite a skidding act. The driver seemed to lose control of his machine for a moment and it looked as if there might be some danger. He did not lose his head but quickly regained control of the steering wheel and guided the machine safely to the center of the road.

Counting the pilots and official car fifty-eight passed through this city. The first competing car, No. 49, ar-

rived at 8:40 and the last car, No. 40, passed through at 11:07. One of the cars carried the colors of the Red Cross and the back seat was occupied by a sick person. Three different cars contained ladies and the next to the last car was one using a covered screened top and carried repairs. The number of the different cars and the order in which they arrived, together with the time, was as follows:

The Glidden tour is an annual long

distance pleasure trip, not a speed contest. The fourth annual tour started from Cleveland on July 10, and ends in New York city on July 24. Two prizes are being competed for, the Glidden cup for touring cars and the Hower trophy for runabouts, and the cars which reach New York City with a perfect score will win these. The cars are started each morning at a certain time and must arrive that evening at their destination within two minutes of a time specified, otherwise they will be penalized so many points, depending upon the length of time that they are behind the schedule. The cars will also be penalized for any repairs which may be required on the way—except on tires. The drivers are allowed a certain length of time for replacing damaged tires and this will be taken in consideration in checking up each evening.

The main object of the Glidden tour is to prove to the world that the perfected gasoline motor is the modern method of locomotion, that it has been developed to a point where certainty of action, maximum of speed, minimum of cost and safety of operation are positively assured. The principal object is to demonstrate which of the many types of motor cars, is most satisfying and enduring.

OFFICIAL LIST OF ELKS OFFICERS

Philadelphia, July 18.—The complete and official returns of the election in the Grand lodge of Elks, held in this city, were announced as follows: Grand exalted ruler, John K. Tener of Charlestown, Pa.; grand treasurer, Edward Leach, New York; grand esteemed royal knight, W. T. Leickie,

FATHER PENN AND THE ELK.

(Design on the Elks' postal card.)
Dowagiac, Mich.; grand esteemed lecturing knight, Bayard Gray, Frankfort, Ind.; grand esteemed leading knight, John D. Shea, Hartford, Conn.; grand secretary, F. C. Robinson, Dubuque, Ia.; grand trustees, Thos. B. Mills, Superior, Wis.; T. F. McNulty, Baltimore, and Mayor C. C. Schmidt of Wheeling, W. Va.

BIG ELKS' PARADE.

Philadelphia, July 18.—Flanked by a half million cheering spectators, 10,000 Elks marched in annual review down Broad street today. Nearly every lodge was garbed in a manner typical of the home city or state. Grand Esquire John F. Sullivan was grand marshal of the parade. Philadelphia Lodge No. 2 led the army.

JEWS MURDERED IN POLISH TOWN BY THE PEASANTS

WHO WERE PERSUADED THAT
THE HEBREWS WERE EN-
TIRELY RESPONSIBLE.

FOR FAILURE OF THE PLAN

Of the Agrarians—Men, Women and
Children Were Mistreated and
Indiscriminately Slain.

Warsaw, July 18.—The Jewish massacre has broken out in the Polish town of Skonitz on the Austrian frontier. Scores of Jews have been killed or injured and the terrified inhabitants are fleeing toward the Austrian territory for protection.

Frightful atrocities were committed and scores of victims were butchered. Peasants were instigators of the massacre. The Cossacks have temporarily restored order. Panic-stricken, hundreds of Jews are seeking safety by crossing into Austria. After the fighting the dead and dying filled the streets. Men, women and girls were mistreated before being put to death. Agitators who persuaded the peasants that the Jews were responsible for the failure of the agrarian plan for expropriation of land instigated the massacre. Just at dawn hundreds of peasants, armed with scythes, old swords, knives and clubs, entered the town and invaded the Ghetto. They were joined by Jew baiters from the town. The interference of the Cossacks gave many Jews a chance to escape from the town. One party of 37 was overtaken and 25 killed. Not until the Ghetto was cleaned out did the peasants desist.

WOMAN ACCUSED OF BOY'S MURDER MAY YET ESCAPE

Hahnville, La., July 18.—That Mrs. Campisciano, one of the women accused of the murder of little Walter Lamana, the kidnapped New Orleans boy, will probably not receive extreme sentence, became evident when the prosecution closed its case after less than two days of evidence taking, without having directly connected the woman with the crime. Of the other three prisoners, the woman's husband and Gendusa, go-between for the ransom money, have had strong circumstantial evidence given against them. Of the remaining prisoner, Tony Costa, it has only been testified that he kidnapped the child in New Orleans and gave his wagon to the gang which carried the little fellow away and later strangled him.

Frisco's New Mayor.

San Francisco, July 18.—Edward R. Taylor, dean of Hastings law college and acting president of Cooper Medical college, received his commission as mayor from the clerk of the board of supervisors. He immediately proceeded to the office of County Clerk Harry I. Mulcreavy, where the oath of office was administered. Asked regarding his plan for cleaning the city government, Mayor Taylor said: "I have no plans at present. I intend to conduct the government on a non-partisan basis, but further than that, I have no plans."

MR. ROCKEFELLER WOULD LIKE TO HOLD AMATEUR GOLF CHAMPIONSHIP.

IN THE HANDS OF HIS FRIENDS, THE ENEMY, THE REPORTERS

CLEVELAND, July 17.—Acknowledging his fascination for the game, John D. Rockefeller was again among the early onlookers at the amateur golf championship in progress here. In spite of the powerful rays of the sun he rattled up in his automobile soon after Jerome Travers, the metropolitan champion, and Chandler Egan, twice amateur champion, had started on their initial stage of the struggle.

CRUCIAL STAGE IN GLASS TRIAL HAS BEEN REACHED

San Francisco, July 18.—The trial of Louis Glass for bribery reached a crucial stage when the prosecution made its first attempt to begin the introduction of the testimony of 10 or more supervisors other than Dorton that their votes were bought by Theodore V. Halsey, acting under direction of Vice President Glass of the Pacific States Telephone company. Glass at the present time is being tried for the bribery of Dorton. The prosecution contends that it has the right to lay before the jury the inference of his guilt contained in the proof of his having bribed other supervisors like Dorton. The defense denies this right, mainly on the ground that the state is not privileged to prove other crimes in an effort to establish the crime on trial.

Heat Victims at Pittsburg.
Pittsburg, July 18.—Ten fatalities due to the intense humidity and oppressive heat were occurred here, making over a score of deaths within the past 36 hours. The suffering in the mills and manufacturing districts is worse than has been experienced for years.

A FIST FIGHT PROVES FATAL

Springfield, Ill., July 18.—With one blow of his fist on the jaw, a Harry McGurk, a prizefighter known as "Red" McGurk, broke the neck of David Brennan, a miner, in the house of Annie Vancil. Brennan died before physicians reached him. McGurk telephoned the police what he had done and officers arrested him. He refused to talk.

A FEARFUL LEAP OF STENOGRAPHER

Who Deliberately Dashed Herself To
Death at Chicago—No Cause
Is Known.

Chicago, July 18.—While talking to friends in an office on the fifteenth floor of the Masonic temple, Miss Anna Normoyle, a stenographer, deliberately walked to an open window and, without a word of warning, threw herself over the ledge and was dashed to death on the stone pavement of the grounds, 150 feet below. The force of the fall was so great that the body of the girl was mutilated beyond recognition. No cause is known for the suicide.

MINISTER IS ARRESTED.

Kenton, July 18.—Dr. J. J. Boone, assistant superintendent of the Methodist Sunday school in Mt. Vernon, is under arrest for alleged criminal assault on Mrs. Julia Hall, aged 22, a society leader. He declares he is innocent of any wrong to the young woman. "I know my husband is innocent of the charge," says Mrs. Boone.

TALK MISLEADING AS TO A STRIKE OF TELEGRAPHERS

Oakland, Cal., July 18.—"The strike in San Francisco and Oakland will continue," said President Small of the Telegraphers' union. "There are not enough telegraphers to fill positions and there is no worry about strike-breakers. The talk about calling another strike is misleading. The telegraphers everywhere desire an adjustment of the difficulties once for all and they want it soon. We have come to a place where we must assert our rights and I predict a change in the telegraphic world in the near future, one that will augur well for the future prosperity of those engaged in the service, the stockholders of the two companies and improved service to the public."

St. Petersburg, July 18.—The council of ministers has definitely approved the project for double-tracking the Siberian railroad, and a bill sanctioning the project will be submitted to the next duma. An imperial ukase has been issued ordering the extension of a state of "reinforced protection" in St. Petersburg for six months, beginning July 21.

FIVE ARE INJURED IN A COLLISION

Cincinnati, O., July 18.—A fast passenger train running as first No. 3, on the Baltimore & Ohio railroad, out of Parkersburg, collided head-on with the Walton accommodation No. 23, on the Queen & Crescent route, near the junction south of the Eighth street viaduct in this city, and five people were injured. The engines of both trains were demolished. Those injured are: James Fitzpatrick of Ludlow, Ky., engineer on the Q. & C., internal injuries and bruises about head, condition serious; Engineer Sniff of the B. & O. train, of Parkersburg, W. Va., bruises about the body; Conductor Murphy of the B. & O. train, of Chillicothe, bruises about the body, lower limbs, and a deep scalp wound, condition serious; Mr. and Mrs. Milford of Cincinnati, bruises and contusions.

HUSBAND

Of "Black Patti," Was Probably
Fatally Shot By Two Unknown
Men In Virginia.

Norfolk, Va., July 18.—Richard Jones, a negro, claiming to be the husband of Serena Jones, the noted negro soprano, known as "Black Patti," was probably fatally shot in the suburb of Portsmouth, Va., by two unknown negro men, who made their escape and have not been caught. Jones said he went to Portsmouth with the two men from Norfolk, and that they attacked him for unknown reasons and he was then shot.

Prominent brokerage firm of The Rand Brothers, New York, suspended business, with liabilities amounting to more than \$1,000,000.

STATE CONCLUDES ITS CASE

Court Invites Arguments on His Own
Proposition To Eliminate Certain
Evidence.

Boise, July 18.—The case of William D. Haywood will soon be in the hands of the jury. The defense rested its case this morning. It is evident that Judge Woods' final instructions to the jury will practically eliminate the entire Colorado troubles and will limit the jury to determine whether Haywood was in any way responsible for the death of Steenberg. Clarence Darrow for the defense was extremely bitter in his criticisms of Judge Wood's latitude granted the prosecution. The jury was not brought into the court room. They will come back Friday when Attorney Hawley will open his final argument for the state. He will probably talk all day. Attorney Richardson will follow for the defense, then Clarence Darrow. The State will finish with Borah.

Boise, Ida., July 18.—With the testimony of two witnesses in rebuttal, the state rested in the case of William Haywood. The witnesses examined were from Colorado and gave graphic accounts of conditions around the mines. The prosecution finally decided not to call Pinkertons or mine owners, believing this would strengthen their case before the jury.

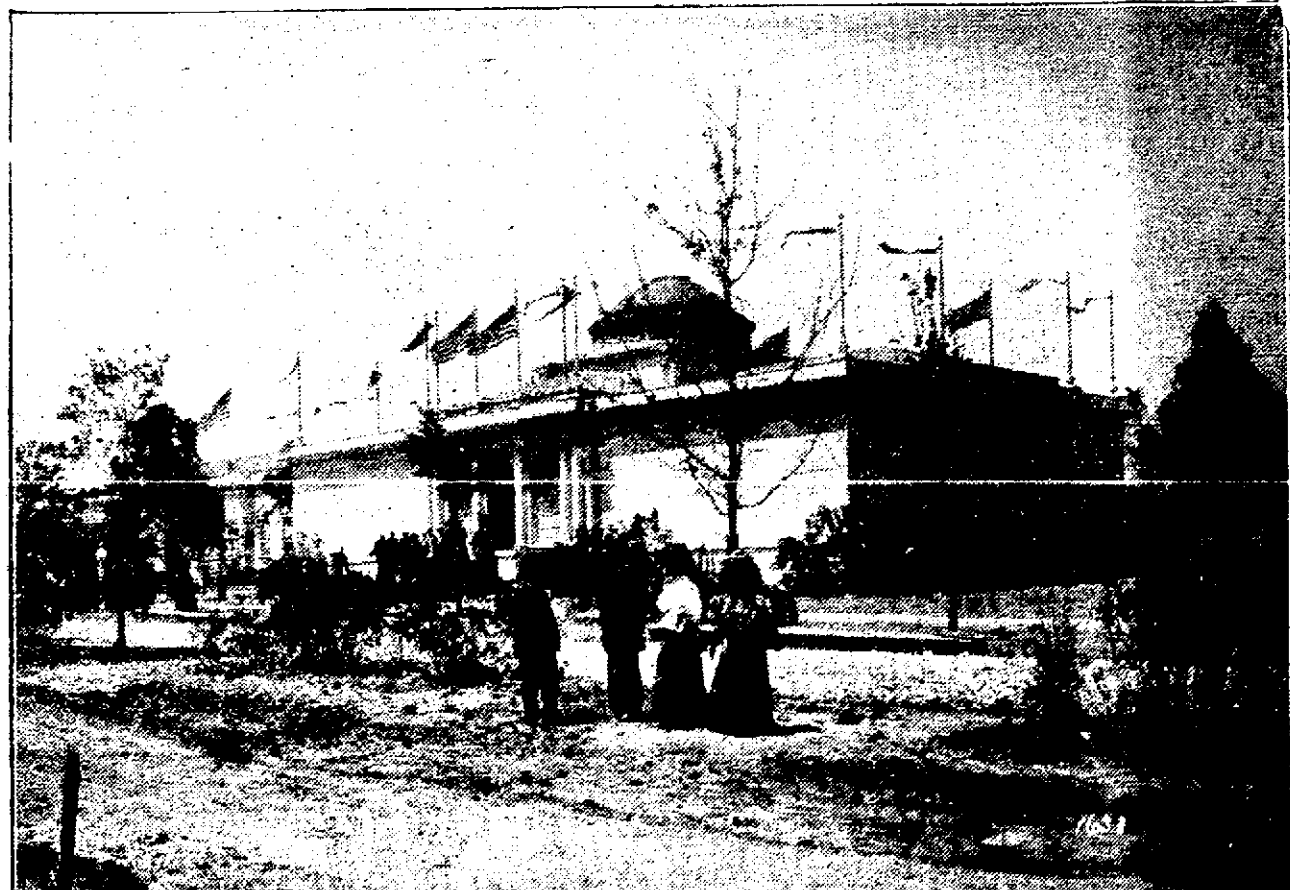

Judge Wood has invited argument on his own proposition to eliminate certain evidence from consideration by the jury, and probably a day will be taken to present the views of both sides as to the instructions to the jury. On Friday morning arguments are expected, and the last stage of the trial will have commenced. After having excused the jury Judge Wood stated his opinion that the evidence introduced by the defense to prove a conspiracy on the part of the mine owners by showing the deportation of union miners from the Cripple Creek district of Colorado during the strikes of 1903 and 1904 was not material to the issue involved and should not be submitted to the jury. On the other hand, he said the showing by the state that Steve Adams was concerned in the killing of two men in the Coeur d'Alene district did not appear to the court to be germane and should be eliminated. Another announcement by the court was a determination to conclude the case within the next week. Judge Wood said he would hold three two-hour sessions daily during the arguments. E. F. Richardson protested against this, but he met with no encouragement.

Attorney Richardson requested the court to order D. C. Scott, William Dewey and J. G. Rutan, witnesses who have testified in rebuttal for the state, to remain within the jurisdiction of the court. This was afterward explained on the ground that counsel for the defense was considering the advisability of issuing certain warrants charging state's witnesses with perjury.

Called by the state, O. M. Sackett, employed at the Smuggler Union mine at Telluride, Colo., claimed he had intimate knowledge of conditions resulting from the struggle between the members of the Western Federation of Miners and the owners of the mines. No amount of severity on the part of Richardson changed Sackett's positive assertion that the mob of Citizens' Alliance of the Cripple Creek district took the law into their own hands. He justified the deportations on the ground that they were necessary. He admitted that some of the deported men were innocent of wrongdoing, but stated positively that they were allowed to come back when the injustice was discovered. Sackett said he knew of a number of murders and outrages committed by the union miners, and the calling out of the militia and declaration of martial law he said was necessary to the preservation of life and property.

William Stuart, a Scotchman, was a miner in the Cripple Creek district during the troubles, and told a story of maltreatment at the hands of miners, who had warned him that he would have to take the consequences if he went to work as a scab.

Assassin Insane.
Paris, July 18.—An investigation into the life history of Leon Malle, the naval reservist, who fired two revolver shots at President Fallieres on the streets of Paris last Sunday, leaves no doubt that the man is unbalanced mentally. Furthermore, he has been a victim of alcoholism for years. He is possessed of the mania of persecution, and fancies that the state should restore him to his identity of which he was robbed at birth.

PILGRIM JOE'S DOINGS

Meets Up With an Old Man Who Is Also Traveling.

BUT THEY FAIL TO AGREE.

The Pilgrim Shows How Integrity Triumphs in the Long Run—He Has a Rather Queer Experience in the Town of Happy Day.

[Copyright, 1907, by P. C. Eastment.]
I was on the road with my outfit between the entertainers' towns of Lost Hopes and Kerplunk when I met up with an old kuss who was travelin' in the opposite direction. With his white hair and white whiskers he had a venerable appearance, and at first I believed him to be in the pilgrim business with myself. As we both halted I smiled a greetin' at him and said:
"Truth may be buried for a day, but truth cannot be squelched."
"And though integrity may now and then stop to rest she gets there just the same," he replied.
Then we began to tell how good it felt to be good, and I had got to

THE FAIRY CREATURE WHO POSED FOR IT.

thinkin' that the old chap's soul was fairly swimmin' in benevolence when he observed:

"It has happened to me very often that I wished I could play the game of poker, in order that I might point out to my fellow men the wickedness of it and thereby keep them in the narrow road. Does it happen that you can teach me? Now and then I come across a mortal who has lost his all on ace-fall by bein' confronted with four tens. He mourns and mourns and I cannot comfort him."

"I have occasionally played a game in order to send a few dollars to the heathen of Africa," I said. "Any other object would of course be unworthy of our noble callin'."

"Of course. We labor to lift up the downtrodden and soothe the disconsolate. Get thee down and take a seat on the greenward and teach me the game that has brought so much sorrow to the hearts of humanity."

Another Look at His Face.

As I descended from my wagon I got another look at his face. Benevolence had been replaced by cupidity, and in a moment I was on to his little scheme. I went ahead, however, and explained the value of the cards and advised with him as to the sort of frozen look he must wear when he had a poor hand and wanted to bluff. In fifteen minutes he was ready to experiment. I saw him jugglin' the pasteboards like an old gambler, but I placed my dependence on integrity and said nothing. After a few hands in which honors were even, he got what he had been signaling for and raised the ante four or five times on me before the draw. When I found myself with a full house I knew that the African heathen would have silk undershirts for the summer. I raised him until we had a hundred bones on the blanket, and then he called and showed a flush and a walloped man. I had scarcely gathered up the long green when he was on top of me and four minutes by the throat. For three or four minutes it seemed as if violence must triumph and virtue take a lickin', but then I rallied and turned him over and set on him and chugged him and plunked him and batted him and swatted him, and when I let up on him he was a man with no ambition left. I believe he was sayin' somethin' as I left, but I passed it by and said to myself that a good man may sometimes get in a tight pinch, but that integrity comes gallopin' up to put fresh beef into his struggles.

Before public further I wish to warn the public that an individual without the fear of bein' kicked to death by a mule before his eyes has put upon the market what he calls Sister Mary's Alleviator. 'Gill is seekin' to carry the impression that I have gone out of the business of cheerin' and alleviatin' sufferin' humanity.

Let no one be deceived.

Sister Mary is not my sister. She is not a sister to any one else.

I have not sold out to a trust or any one else.

Only True Alleviator.

My alleviator is the only true alleviator in this world. It has cheered and cured its millions and is still in the business.

Put up in pink wrappers to look like strawberry ice cream, and the corks stick out of the bottle half an inch, so they can be drawn with the teeth.

If you have lost a horse or a cow, take one dose.

If you are goin' to lose your farm on a mortgage, take two.

If the children are down with the measles, the old woman in for appendicitis and the roof of the barn has fallen in and killed the cows, sip liberally—that is, sip until you find yourself whistlin' "Yankee Doodle" and don't care a darn whether school keeps or not.

Only one failure recorded in twenty years, and that was because the man was born with only one lung and his heart had worked around against his spine.

In showin' my movin' pictures, which do move, in the town of Stop Here a few evenings since I put on "Washington Crossing the Delaware." This is one of my most talkin' pictures. It is so lifelike that you can see Washington drinkin' elder out of a flask to warm him self. You can almost hear him say, "Don't give up the ship."

In showin' that picture I have had audiences stand on their feet and yell for seven consecutive minutes, while women wept and babies howled. I expected it would make the usual hit on this occasion; but, alas, it was received in frozen silence. Not a whoop nor a cheer. I tried to pound it into the audience that it was Washington—George Washington—and that he was crossing the Delaware—the Delaware river, full of floatin' ice—but the harder I pounded the more frozen the silence.

I finally stopped talkin' to inquire if American patriotism was dead, and then pandemonium broke loose. The town had just elected a mayor by a large majority, and he was so jealous because I was givin' Washington a lead.

Tried to Explain Matters.

I tried to explain matters, but it was no use. The enraged population swarmed for me and drove me from the town in ignominy, and the destruction wrought to my property was \$50. As I drove through the darkness and the pourin' rain I bent my head and poured my chin on my breast and asked myself why be good? Why seek to solace my fellow mortals? Why care a tinker's dam whether mankind was happy or miserable? I was feelin' that integrity was but a hollow reed to lean upon when she appeared through the darkness and changed the whole programme—that is, I caught sight of the light in the house of a pioneer, and upon knockin' at the door he made me welcome. That night I sat with him for two hours showin' him how to avoid the cesspool of poker, and when I departed in the mornin' I was \$62 richer and the pioneer had twice that in experience.

At the town of Happy Day next day one of the tintypes I take for cents a take did not please the fairy creature who posed for it. She thereupon rallied all the other fairy creatures in the town, and assisted by a few men who hadn't the interests of their country at heart they descended upon me in solid phalanx. Again I suffered discomfort. I was mauled with a club, my fightin' dog kicked in the ribs and my tent torn down, and as I drove out of the town on a gallop I was almost determined to give up the pilgrim business for a berth in some legislature where I could sell my vote to both sides. Integrity came gallopin' along just in the nick of time—that is, I looked ahead and saw a fat wallet reposin' in the middle of the road. In another minute it was mine. There was over a hundred dollars in it, and as integrity had departed before I finished countin' the greenbacks and I couldn't ask her advice I counted the money into my own hoard and went on blessin' her name.

Vice is full of fried oysters and angels' food, and she sits behind plate glass winders, but when you want a 100 to 1 shot try integrity. She always brings the good with her.

NEW MONORAIL LINE

Details of System Invented by a Baltimorean.

CAPABLE OF GREAT SPEED.

Cars on Road Projected Between New York and Newark, N. J., Can Travel Eighty Miles an Hour—Can Be Built Anywhere—Cost of Construction \$75,000 Per Mile.

Three of the former rapid transit commissioners in New York have become interested in a project to build an elevated four track monorail road between Jersey City and Newark, N. J., with the intention of carrying passengers from New York to Newark for 5 cents and from New York to Jersey City for 3 cents. Announcement of the new project was made the other day simultaneously with the successful conclusion of a trial of the new monorail scheme in the exposition grounds at Jamestown, says the New York Times.

It has been ascertained definitely that John H. Starin, formerly vice president of the rapid transit commission in New York; Charles Stewart Smith and Woodbury Langdon, also former members of the commission, are to give the new company the benefit of their experience.

If possible connection is to be made with the McAdoo tunnel system between Jersey City, Hoboken and New York, near completion. If this plan fails the new company will install fast ferry service with specially constructed boats built for speed and passenger service only. It is stated that the journey by ferry, will be made more quickly by the monorail than by the steam railroads.

It was stated on behalf of those interested in the new company that their purpose is to institute a real rapid transit system rather than to build up a great money making concern. The announced aims of the concern are to give exceptionally good service, to avoid overcapitalization, to maintain harmonious relations with the public and with employees and to prove that an enterprise conducted on highly moral grounds can be made successful financially.

The system to be used differs radically from the Behr monorail system, proposed for a road from Brooklyn to Coney Island. It is the invention of Howard H. Tunis, a Baltimore engineer. It is claimed that it can be constructed at less than half the cost of a trolley road, that it can be operated at one-third the expense and that eighty miles an hour can be made with ease and safety. From the explanations given out it appears that the chief feature of the new scheme is its simplicity.

Briefly stated, the system consists of a long, somewhat narrow, cigar shaped car, running on two trucks of two wheels, set tandem, each over one rail. Overhead the car is supported by an equilibrium device which holds the car upright under all possible conditions and at the same time acts as a conveyor of the electrical current, doing away with the dangerous third rail. By reason of this device it is possible to operate extremely light cars over an extremely light structure. With such cars the inventor and others claim that 100 miles an hour can be made easily.

Supported above the car by iron bolts on each side of the track are two small L shaped rails about thirty inches apart. The equilibrium device consists of a ladder-like trolley pole arrangement, at the end of which there are ball bearing guide wheels that run on the L shaped rails. The trucks on which the little wheels rest may not be removed from the rails without taking the structure apart, so that there is no chance of the wheels "jumping" and letting the car topple over sideways. The body of the car is of standard construction, forty-seven feet long, six feet wide, and it has eight motors.

Mr. Starin, who is already identified with several transportation interests, said:

"I have been for more than thirty years identified with transportation interests in one way or another, and for seventeen years I have been a member of the rapid transit boards of New York city and engaged in an effort, which has not been entirely unsuccessful, to work out the great urban transportation problems that confront the city, and it has given me considerable pleasure to be able to assist in the development of what is without doubt the most wonderful railroad system the world has yet seen. First of all, it will do in an effective manner that which is the main business of a railroad—deliver you at your destination with promptness. An average speed of from 60 to 100 miles an hour for passenger trains ought to satisfy even this hurrying age, and if it doesn't the speed can easily be pushed up to even a higher average.

"The thing that has appealed to me in this new system is its striking commercial advantages. It can be built anywhere—in a narrow street, because it is a narrow road and has only one rail, thus taking up but little space; in rough and inaccessible country because it is the master of the hard problems of grades, and wherever it is built its construction is cheap compared with the great cost of steam and even trolley railroads. Take, for instance, the three track, steel viaduct extension of the subway in the Bronx. That line cost the enormous sum of \$750,000 a mile to build. This monorail can be built for \$75,000 a mile, far tracked, and it can be maintained and operated with equal economy and greater efficiency."

ALEXANDRIA.

Mrs. Dr. Gardner and daughter Ava, of Lansing, Mich., who have been visiting relatives and friends in and near Johnstown and Alexandria, for the past three weeks, returned home Tuesday.

Mr. Edward Dutton of New York City, visited his sister and family, Mrs. Alice Nichols, the first of the week.

Mark Griffith and Miss Elsie Hankinson of the Welsh Hills, spent Sunday at the home of Samuel Sipes.

Mrs. Vic Stinson of Centerburg, spent Wednesday night and Thursday at the home of her brother, S. S. Anderson.

Mrs. James Cottrell and son Harry, of Columbus, are visiting friends in the village.

Mrs. L. C. Laycock and daughter Grace, left Wednesday to visit her daughter, Mrs. Nettie Howland, of Portsmouth, and Winchester, the home of her mother, Mrs. Purdy, from there to Cincinnati, the home of her daughter, Mrs. Harry Stewart.

Born, to Mr. and Mrs. Carl Hawthorne, last Friday morning, a son.

J. C. Berger, wife and daughters, Lerona and Grace, Sundayed at the Chadwick home.

Elias Gallant of Delaware, visited his grandparents, Mr. and Mrs. Elias Thomas, the latter part of last week and first of this.

Miss Stella Beaver of Columbus, is the guest of her sister, Mrs. O. A. Brooks and family.

Luther Barslowe, wife and daughter Bertha, of Red Oak, Iowa, are the guests of his cousin, Luther Wells and family.

Mrs. Hill spent a few days in Columbus and Delaware.

Mrs. Mary Smith of Jersey, spent Tuesday in the village.

Miss Josephine Matthews of Centerburg, was in town Monday.

Mrs. Austin Ashbrook and daughter Tulle, of Newark, returned home last Friday after a three weeks' sojourn with relatives in and near town.

Mrs. Mary Sperry of Columbus, is visiting her cousin and family, Mrs. O. A. Brooks.

Miss Grace Cornell is visiting friends in Galena.

Edward Cornell and wife of Greenview, are visiting at the home of his brother, Joseph, west of town.

Dr. Frank Grey and wife, of Clare, Mich., are the guests of his uncle, Thomas Cabbage and family. They made the trip in their auto.

Miss Celia Hammond returned home Monday after a five weeks' visit with friends in Loveland, Cincinnati and Ravenwood, W. Va.

Rev. R. B. Dunlap, pastor of the Congregational church at Alexandria, met with a very painful accident which might have proved more serious, last Thursday afternoon. He in company with Dan Clark, our lumberman, went to look at a giant walnut tree, on the Avery farm, about four miles south of town. The men were guessing as to the number of feet to the first limb. The Rev. Mr. Dunlap suggested climbing up by means of a grapevine, which had grown on the tree. Rev. Mr. Dunlap grasped the vine preparatory to climbing, when it loosened and fell upon him, inflicting a painful wound on the top of his head. He was hurriedly taken to the office of Dr. L. C. Laycock where several stitches were attended. He is doing nicely and able to attend to his duties.

Morris Gurney, T. & O. C. mail agent, was home a few days this week.

Dr. L. C. Laycock, accompanied by his son Wilbur, made a professional call Monday evening at the home of R. Chidister, near the railroad on North street. While the doctor was in the house he left the rig in charge of his son. A passing train frightened the horse which in turning threw Wilbur out, when found the horse was in a nearby cornfield and the buggy in a ditch, badly demolished. The boy and horse were uninjured.

The devotional half hour was led by Mrs. Dodson with a Scripture lesson from John I, 1st chapter, commenting thereon in a very helpful way. The meeting was much enjoyed by many.

After the reading and approval of the minutes of the last meeting, Mrs. Sisson gave a short talk on the late Mrs. Clark, who was taken from among us, and it was carried that we observe the 21st of August as memorial day of the departed Anna W. Clark.

Miss Frances Ensinger was elected as state president to take the place of the one departed.

Mrs. Keller read an article, the obituary of Francis Murphy, which will be continued next week.

The union discussed and endorsed the stand Father O'Boylan has taken on the temperance question.

Next week the subject will be L. T. L. This will be a good meeting and should come out and enjoy it.

THE SNOW-MAN ROMANCE

A snow-man made love to a pretty snow-drift. Way down in the orchard where all was quite still. He stretched forth his arms in a pleading of love. But this little snow-drift was laughing and chaffing.

The snow-man loved on in his own patient way. Until the cold snow-drift was softened and warm. Then suddenly, burst through the dark clouds, a heart that was called by the South Wind, the Sun!

It melted the man that was moulded of snow. It showed the pretty snow-drift in a day's light. And gladly their lives did the two lovers join. The end in a glow, forever, always!

R. O. T. M. Will Meet.

Octagon Tent 132 will hold a regular meeting on Friday evening, July 20. All members should be present at this meeting as business of importance will be transacted.

Dr. Willoughby Miller.

Dr. Willoughby Miller the famous American dentist, who has been located in Berlin is quite sick with appendicitis at his old home north of Alexandria. Dr. C. H. Stimson was called to attend him.

Newark Couple Wed.

George Vogel and Miss Sylvia Celestia Borden of Newark, were married yesterday afternoon in the office of Mayor Badger in Columbus, by Rev. S. K. King, secretary to the mayor. D. A. Donovan and Harry C. Potts were the attendants.

King's Daughters.

The Silent Circle of the King's Daughters and Sons have organized some vacation clubs for children. A meeting of Center No. 1 will be held at Central school building, Friday at 2:30 p. m. All children between the ages of 10 and 14 in that district are invited. They will be entertained by Mrs. Hunt-Ruff and others.

The Corn Crop.

The feed men in the city say that old corn is getting scarce, and it is difficult to get those who have it to haul on account of other work pressing. Those farmers who have corn to sell, insist that the crop in the ground looks poorly, and those who are out of corn, report that the prospect for a good crop never was better.

Machinists Outing.

One of the largest and most enjoyable outings of the season is that of the local machinists and their families and friends, which was held at Buckeye Lake on Thursday. It is thought that between one thousand and fifteen hundred people from Newark are taking in the pleasures of the park and are having one of the times of their lives.

Mr. Proppe's Statement.

Mr. E. Proppe stated to The Advocate this morning that Louis Swait was never considered as a partner of the New York Clothing company, whose effects were recently attached at Coshocton. Mr. Proppe lives in Newark, while his partner, Mr. Gluck, lives in New York City. The matter is entirely a personal one between Mr. Swait and Mr. Gluck, and Mr. Proppe has no connection with the suit whatever, only as Mr. Gluck's partner.

Boxwell Commencement.

The annual Licking county commencement for the graduates of the Boxwell-Patterson examination will be held under the auspices of the Licking county board of school examiners at the Christian church, on North Fourth street, this city, on Saturday afternoon, July 20, at 2 o'clock. There will be a large class of graduates to receive their diplomas entitling them to free admission to

any high school of the state. Special music will be furnished for the occasion, and appropriate addresses will be made by Prof. Frank Pierson of Columbus, and Judge E. M. P. Brister of Newark.

Dissolve Partnership.

The grocery firm of Rinehart & Canfield has dissolved and will continue business under the name of W. H. Rinehart.

O. of U. A. Meeting.

The Order of United Americans will hold a regular meeting at O. R. C. hall Friday evening, July 19. Every member is expected to be present. Mrs. Lizzie White and Mrs. Billings of Philadelphia, Pa., will be present to install officers.

L. W. Sturdevant Dying.

Mr. L. W. Sturdevant, who has been seriously sick at the Newark Sanitarium for several days, is reported as being very much worse today, and his physicians have about given up hope. It is thought that he cannot survive another 24 hours.

Foot Blisters Hurt.

Stephen Criss, an employee of the Wehrle Stove foundry, has his right foot badly crushed Thursday afternoon by having it caught in the elevator. The McCament ambulance made a hurry run and conveyed him to the Newark Sanitarium, where he is being cared for.

Airship Will Not Fly.

The date for the flight of the airship "Coshocton" at Newark will have to be postponed, for Mr. Al Donaldson the solicitor for the company at Newark received word Thursday that the box burst and let out all the gas, which to make is very expensive. The bag, too, is of silk and will have to be replaced. The flight will have to be postponed until the next week in August.

Will Continue Work.

Mr. H. R. Porter of Walhalla, N. D., and who has been here for some weeks working with Dr. Byron W. King's summer school, will go on Thursday to the Miami Chatanqua, near Dayton, to continue his work. Mr. Porter is a most interesting talker and says that the town of Walhalla is one of the historic towns of the great Northwest. It was the scene in its early days of several horrible Indian massacres, and was once a town of 2000 people, but the Indian troubles got it down in population to 200 souls. As it is so picturesque and since the Indians are quieted it has increased to 800. The historic associations and the natural beauty of the place and its surroundings, make it a gathering place for all kinds of celebrations and Mr. Porter says that there has often been 10,000 people entertained there in a single day. Mr. Porter likes Newark and the Advocate, and ordered the paper forwarded to his new address.

COURT NEWS

To Encumber Property.

A petition has been filed in the Court of Common Pleas entitled: "In the matter of the application of the trustees of the First Church of Christ of Utica, to encumber its real estate." The petition says that the trustees are E. C. Talbot, Harrison Bell, Randolph Iden, James B. Fricker, C. D. Hayes and Andrew Hulshizer; that they have the management and control of the business of the society. They say that they are the owners of the church property at Utica; that they are indebted for the building, and it is deemed necessary to borrow \$1500. They ask the court for authority to issue a note for \$1500, and to encumber the real estate by mortgage.

Motion to Secure Costs.

In the case of George W. Slatter against the Licking Mining company and others, the defendant, R. H. Sears, has filed a motion in the Common Pleas court asking the court for an order requiring the plaintiff to give security for costs in the case for the reason that he is a non-resident of the county.

Portion of Liquor Tax.

County Auditor Wright has paid into the county treasurer the sum of \$9,352.13, the apportionment of the liquor tax due to the county infirmaries.

Still Hearing Case.

The case of George P. Webb, receiver of the Homestead Building and Savings company, against Mary J. Lingafelter, is still in hearing before Master Commissioner A. S. Mitchell. Testimony is being taken by Official Stenographer Wood of Knox county. A. M. Weber, the expert accountant, is still on the stand.

Still is brought to recover a judgment for the money illegally appropriated by the Lingafelter, amounting to about \$76,000 and interest.

Petition to Quiet Title.

Theodore C. Hamilton has filed a petition in the Common Pleas court against L. H. Bonds and others. He says he is the owner and in possession of lands and water privileges in Union township. He claims title in fee to the premises, and defendants claim title of some interest adverse to him. Plaintiff says the claim of the defendants is without any right, and that they have no estate right, title or any interest in the premises or any part thereof. Plaintiff prays that his title may be quieted in him, and for all other and further relief in equity he may be entitled to and his costs.

EVENING GOWN.

Simplicity is the characteristic of this stylish evening gown shown in the accompanying sketch. It is made of lustrous, soft drapery. The blouse is cut very full, V-shaped, and has the lower sleeve trimmed with a band of liberty silk to match. The skirt is made of long sweep and has four flounces from the knee down, each being four inches wide. A glimpse of meshine lace worn with this gown makes it quite appropriate for afternoon wear.

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

- 1902—Armistice declared between Honduras and Salvador and Guatemala.

THIS AND THAT

The Glidden tourists excited Newark today more than a circus could possibly do. The tourists put on an air of cheerfulness that contrasted greatly with their hard-scrabble appearance from wear and tear.

It will surprise many people to tell them that Newark has a greater population today than Columbus, Dayton or Toledo had in 1860. Doubters can verify the fact by referring to the census figures.

The recently published pictures of Rockefeller don't look a day older than they did three or four years ago, when they were taken.

A Toledo paper contends that watermelons that ripen in a box-car on the way north are not the kind that southern poets rave about.

Though the weather is hot the Washington correspondents seem to have entirely cooled off about any war between the United States and Japan.

To the average Newark man there is no place like home, after he has spent a vacation somewhere else.

The talk still goes on about Dan Hanna's divorces which cost him half a million dollars. The settled opinion is that it would have been better and cheaper for Dan to have been contented with his original marital compact that stood for merit and virtue.

The question does not seem to be settled whether Luther Burbank, promoter of natural freaks, can succeed in producing an "orderless onion," though there is a great demand for it in female circles.

Perhaps John D. Rockefeller will stand up in Sunday school one of these days and tell all that Judge Landis wanted him to do in the Chicago court.

After a conference with Roosevelt at Oyster Bay the word is given out there must be no tariff revision until after the next presidential election. All of which indicates a close relationship between third terms and standpatters.

OFFICERS INSTALLED

By the White Cross Lodge of Johnstown, on Thursday Evening—
Busy Season in the Thriving Village.

Johnstown, O., July 18.—White Cross lodge, K. of P., installed officers for the ensuing year last Thursday evening, as follows:
C. C.—Emmett Philbrook.
V. C.—M. D. Shrader.
P. C.—J. E. Barrick.
M. at A.—Dr. C. A. Day.
I. G.—W. A. Aldorf.
O. G.—Bert Dresback.

This is one of the busiest seasons our village has experienced for several years, so much building and other improvement going on that it is almost impossible to secure help. The new Rustler block is now in process of erection, the O. W. Brown dwelling is about enclosed, H. D. Paine is building two dwellings on Kesson street, Patton & Carter, a fine dwelling on their North Main street lot; Miss Ida Beidler, an office building on Pratt avenue; same to be occupied by Dr. Collins. Everybody is hustling and the town is on the boom.
B. F. Carter and family and Miss

Della Carter are spending this week at Cedar Point and Lakeside.

W. W. Green left for Columbus Tuesday, where his horse, Roe M., has been in training for sometime under the care of James Webb. The owner and trainer left with the horse on Wednesday for Covington, Ky., where the animal is entered in a race for Friday. Roe M. gives promise of great speed this year.

Born, to Mr. and Mrs. G. C. Williamson, last Thursday, a fine baby girl.

Arthur Kasson, telegraph operator for the L. E. & W., at Celina, visited over Sunday at the Kasson hotel with his parents, Mr. and Mrs. M. B. Kasson.

Miss C. S. Arthur of Mansfield, O., is visiting at the home of her mother, Mrs. Mary J. Elison.

M. E. Butt has accepted a position as traveling salesman from the Toledo Computing Scales company, to be in addition to looking after the interest of the Inter-State Stock Food company on the road.

J. C. Malone of Granville, was in town Saturday on business.

Miss Mary Cross of Granville, visited friends here Tuesday and Wednesday, of this week.

Johnstown baseball team plays the Jewett Car works nine of Newark on the local diamond next Saturday, July 20.

The lecture given at the Opera House, Saturday evening, was greatly enjoyed by all who heard it. Several from Newark accompanying the lecturer on his visit here Dr. King remained here until Sunday giving a Bible reading at the Baptist church on Sabbath morning.

Jasper Cheek and family are in Columbus today, in attendance at the marriage of their son, Orr Cheek, to Miss Minnie Huffman of that city.

This locality was visited by a very severe electrical storm Wednesday afternoon and night. Many phones were put out of business and much damage done to the lines. Austin Carpenter, residing three miles south of town, suffered the loss of two valuable horses. Wood Beem's barn in Jersey township, was struck by lightning and with its contents totally destroyed. Mr. Beem's loss is in the neighborhood of \$500, with only partial insurance.

IRON TRADE REVIEW

Cleveland, O., July 18.—The Iron Trade Review today says:
The most important transaction in shapes and plates was the sale of

about 20,000 tons to Chicago and 7,000 tons of fabricated steel to the Northern Pacific railroad, making 20,000 tons taken by IHH roads this summer. Inquiries for a considerable tonnage of structural steel for barges and packet steamers are pending at Chicago, and many small orders of structural steel have been placed throughout the country. Deliveries are not being so promptly made.

Sales of bar iron are limited and some western mills are showing indications of anxiety concerning orders. Specifications against steel bar contracts are heavy and new business is satisfactory. An order for 2,300 steel cars has been practically closed by the C. B. & Q. railroad and other railroad inquiries are pending. Delivery of plates is more prompt and independent interests which a few weeks ago, were getting promises of \$6 per ton are now receiving only \$2. Orders of rails and track material are limited, and some reporting of prices on nuts and bolts is current.

Owing to extremely hot weather, the supply of labor in the coke region has been inadequate and production has been reduced. The demand for coke is very slack and prices are firm. Old material is dull and prices are receding in nearly all markets.

HAVE PAPER FOLLOW YOU.

If you are going away from home this summer you can have the Daily Advocate follow you on your travels without any extra expense. The address will be changed as often as you desire. To receive the Advocate while away from the city is like getting a letter daily from home.

MR. LEON WESTON WILL BE HERE PROBABLY SUNDAY

To Attend the Funeral of His Wife, and the Arrangements Have Been Deferred Until Arrive.

Mr. Leon Weston, the husband of the late Mrs. Helen Elizabeth Weston has been heard from. Mr. Charles Smucker received a message Wednesday afternoon saying that Mr. Weston had started from the railroad point near Waterville, Wash., at 3:30 p. m. Tuesday, and that Mr. Weston will likely get here Saturday late in the day, or early Sunday morning. The funeral arrangements while not settled yet, will be either Sunday or Monday.

A LOVELY COMPLEXION WITHOUT POWDER OR ROUGE

A Simple Toilet Preparation, Made at Home, That Will Work Wonders Toward Beautifying Your Complexion.

When a woman reaches the point where she is under the necessity of using powder and rouge, it is a virtual admission that her complexion is deteriorating. Be it said to her credit, she usually uses these makeshifts under force of necessity. She would gladly dispense with them, but all too well she realizes that half of her beauty would be gone. It may be safely said that nine women out of ten—yes, ten women out of ten—would joyfully welcome delivery from the powder habit if they could find some bloom to restore the fresh, charming bloom of the complexion of their youth.

The following face wash, now in almost universal use among Parisian women and their matchless complexion attest its efficacy will restore clearness of skin and delicacy of tint to the plainest of complexions if applied daily.

Obtain at your drug store Rose Water, 2 ounces; Cologne Spirits, 1 ounce; Eppotone (skin food), 4 ounces. Put the Eppotone in a pint of hot water (not boiling), and after dissolved, strain and let cool. Then add the Rose Water and Cologne Spirits. It is quite an easy matter to mix the ingredients according to above directions, and can best be done at home. It costs so little and accomplishes such a decided improvement on the skin, that it should be a requisite on every lady's dressing table. If this wash is used the plainest complexion will take an immediate and decided change for the better, and the powder puff and rouge jar can be relegated to the closet.

Every woman who would like to have a pretty complexion (and unless feminine nature has changed mightily, this may safely be said to include all daughters if Eve) cannot do better than give this preparation a trial. It is perfectly harmless, even to the most delicate skin.

Wise Counsel from the South.

"I want to give some valuable advice to those who suffer with lame back and kidney trouble," says J. R. Blankenship of Beck, Tenn. "I have proved to an absolute certainty that Electric Bitters will positively cure this distressing condition. The first bottle gave me great relief, and after taking a few more bottles I was completely cured so completely that it becomes a pleasure to recommend this great remedy." Sold under guarantee at F. D. Hall's drug store. Price 50 cents.

JAPAN'S LOVE FOR US

United States Held in Deepest Reverence, Says Dr. De Forest.

DEEMS WAR TALK SHEER BOSH

Missionary Who Lived With Japanese Thirty-three Years and Knows All Classes Believes It Not Wise to Send Big Fleet to the Pacific—War Would Be Highest Calamity to Civilization.

The Rev. Dr. John H. De Forest, who has been a missionary under the American board of foreign missions in Japan for thirty-three years and who is now in Brooklyn on a vacation, says the talk about war with Japan is sheer nonsense. He bases his opinion not only on his long and intimate acquaintance with the Japanese people, but on his friendship with high government officials and army and navy men. He was at the front in Manchuria in the war with Russia and has the personal friendship of such men as Count Katsura, the war premier, General Kuroki and Count Okuma. Dr. De Forest believes it is not wise to send a battleship fleet to the Pacific, but says that if one does go he hopes it will go straight to Yokohama.

"From the past friendship of Japan, I firmly believe that the fleet would receive one of the greatest orations Japan has ever tendered," Dr. De Forest said recently in an interview with a representative of the New York Sun. "I am amazed at the prominence which part of the press of the United States has given to this Jingo war talk. To think that there could be any war over the strongest difficulties is to ignore the strong bonds that could possibly bind two nations together."

"The Japanese have the deepest reverence, admiration and love for the United States. Ever since Commodore Perry opened up their country more than fifty years ago their gratitude and love for us have been increasingly strong. The American ministers, from Judge Bingham, one of the first, with only one exception, have been wonderfully helpful and sympathetic. The Japanese recognize and appreciate it. We were the only nation that ever gave back their indemnity. We treated them decently. They will never forget these things."

"In the recent war they were intensely eager to get the sympathy of the United States. They got it, for they were easily fighting a battle for liberty against despotism. I could not count the number of army and navy men, also the people of the middle classes and the laborers, whom I have met who thanked this country for its sympathy. This war talk is cruel and shameful. It is merely that the jingoes here have aroused the jingoes there."

"In January, before I left Japan, Premier Saionji in his opening address to the house of representatives dismissed the San Francisco troubles briefly, saying that it was not of international significance and probably would not be. General Kuroki at Boston, before he left this country said to me, 'The San Francisco school trouble is merely a local affair, and has no international significance whatever.' The people of Japan feel that San Francisco does not represent the heart of the American public, but take their view of it from the words of President Roosevelt, in whom they have the greatest confidence."

"Count Katsura, premier during the Russian war, and a soldier, said to me just after the war had started: 'We fight if necessary, but hate war. We have staved off this war for six months, but our principles are opposed to Russia's, so we must fight.' After the war he told me it had been one for liberty and the open door for all. And the truest expression of the Japanese national spirit is contained in this quotation:

"If any one inquires what is the national spirit of Japan—it is like the wild cherry blossoms on the mountain sides, whose fragrance is freely given to all the atmosphere, and whose blossoms fall from the trees to die, rejoicing."

"That does not look like a war spirit, but the jingo papers tell of the swelled heads of the Japanese. There was never any one so modest over victories. For six weeks after their big victories I met generals, colonels and privates, but I never saw a glimpse of joy or heard a boastful word upon congratulating them. We could well afford to sit at their feet and learn to be modest. I believe that one source of this jingo talk is in the disgruntled war correspondents of the Russian war. Those who went out at the beginning of the war were sorely disappointed when not allowed to go at once to the front. The Japan Mail has said more than once that some of these men resolved to do all they could to throw dirt upon Japan because of their treatment."

"It is a mistake to charge Count Okuma with being the leader of any war spirit against the United States. He is one of our warmest friends and would never lend himself to any such debased jingoism. While he is leading the Progressives and opposing the administration, he is not the man to make any trouble with America. He must necessarily oppose the administration, as the political parties of Japan are largely a matter of being in or out and have no very well defined policies which differentiate either side. He and all other intelligent Japanese know that a nation can do as it likes in excluding cool labor. Japan itself will not allow a Chinese coolie in the country overnight."

"A war with Japan would be the highest calamity to the civilization of the world. It is fortunate that there is

no possibility of it. It is not only impossible to get up a war in the present situation, but there is not stuff enough to get up for an arbitration case. This foolish talk must lower us in the eyes of European nations.

"It is a most unhappy thing that President Roosevelt, who has won the admiration of Japan, should play into the hands of the jingoes at this time by the sending of a fleet to the Pacific, but even here I believe the real spirit of Japan—not merely a worded sentiment with a hidden meaning—is this: 'If the fleet comes to Japanese waters, let us welcome it as the navy of our best friend and give it the warmest greeting possible.'

"The Japanese government is absolutely true to the United States, which has been its friend as no other nation has. There is no more truthful and righteous government in its international relations than that of Japan."

COUNTRY HOUSE OF GLASS.

Financier Plans to Utilize All Sunlight Possible in Long Island Home.

In a country home built entirely of glass C. Parker Woodbury, a Wall Street financier, with a town residence in Brooklyn, will seek sanitary perfection and all the health giving qualities from sunlight filtering through the roof and walls as well as the windows of his residence. This house is to be erected at Beechhurst, N. Y., at a cost of \$25,000, says the New York Herald.

Albert Swasey, an architect in New York, is preparing the plans for Mr. Woodbury's glass house. It will be the size of a fifteen room dwelling, but instead of having interior walls, with hallways and doors, the two floors are to be divided off, as suits the occupant's fancy, with Japanese screens made of bamboo and paper.

In the construction of the house long glass blocks twelve inches long and ten inches thick will be used. While the glass will be tinted and therefore not transparent, it will be translucent. Cream color probably will be the tone chosen by Mr. Woodbury for the walls of his home. In order to modulate the amount of sunlight entering the rooms an elaborate system of screens is to be devised, but these probably will not be much in demand, since the builder desires all the sunlight he can get.

At night the house will be lighted by electricity, and as the light will penetrate the walls the Woodbury home will be one of the show places of Beechhurst when it begins to glow in the evening. Great care will have to be taken in installing the plumbing and lighting system in order to prevent its showing through the glass. When completed, however, the walls will be absolutely fireproof.

Mr. Woodbury says that his glass house will be exceptionally cool in summer and warm in winter.

Free Potatoes in Indian Territory.

William Gulager of Muskogee, I. T., has a potato field of twenty acres near town from which he is now marketing the first crop, says the Kansas City Star. He says that the present prices will clear him \$81 an acre on his twenty acres. He will plant a second crop on the same land just as soon as the first crop is dug. The second crop should net \$50 an acre. An interesting phase of the potato business is that along the roads and in the fence corners of the potato district there are enough volunteer potatoes growing outside of inclosures for any one who wants potatoes to dig and carry away all he can use. These come up from seed wasted in planting and moving previous crops.

Largest Playground For Jersey City.
Jersey City is to have the largest playground in the world. It will be sixty-nine acres in extent, or six times as large as the great stadium at Athens and more than half as large again as the famous parade ground adjoining Prospect park, Brooklyn, which has twenty baseball diamonds, eleven cricket fields and scores of tennis courts and lawns for various other games, says the Chicago Tribune. It will have an immense swimming pool, recreation piers, refectories, a broad esplanade, baseball fields, golf links, tennis courts and cricket grounds.

Many Neckties For a Legislator.
Representative Snyder of Schuylkill, Pa., who was the father of the bill making the minimum schoolteacher's salary in Pennsylvania \$40, is devoted to fancy neckties, and the schoolteachers of Pennsylvania, knowing this, have in their gratitude been sending him neckties as a reward, says the Philadelphia Record. Up to a short time ago, since the adjournment of the legislature, he has received 2,000 neckties from all parts of Pennsylvania.

Dollar For Every Girl Baby.
"Boss" Silvers, the largest individual landowner in Madison county, Ill., residing near East Alton, Ill., has outdone Mayor Beall and his stork in Alton by offering a dollar for every girl baby born in Wood River township, says the Chicago Record-Herald. Silvers is a bachelor and says that while he has no chance to do with love affairs he loves girl babies and believes there should be more of them on the farms around Alton.

Scarecrow Home of Crows.
Mrs. John Rugger could not find any of her husband's old pants to make scarecrows, so she made two scarecrows out of old dress skirts and set them up in a cornfield on their farm near Shohola Glen, N. Y., says a Port Jervis (N. Y.) special to the New York World. Rugger recently found thirteen young crows in the stuffed dresses. He says this proves that a scarecrow must be bifurcated to be efficient.

ABDICATION OF EMPEROR

Sounds the Knell of the Ancient
Empire of Korea.

JAPS NOW HOLD FULL SWAY

Crisis Reached When a Korean Deputation Was Sent to the Peace Conference at The Hague—Japanese Foreign Minister's Visit to Seoul a Matter of Moment.

London, July 18.—The abdication of the Emperor of Korea would cause no surprise here. Matters have been drifting in that direction ever since the Japanese occupation of that country and the Japanese government evidently regards the dispatch of a Korean delegation to The Hague as affording her the long sought pretext for putting an end to the present anomalous condition of affairs in Korea.

For a long period the empire was under the suzerainty of China, but in 1894-5 Japan drove China out of the peninsula and Korea enjoyed a brief period of independence. In 1904 Japan stepped into Korean affairs with assurance of safety, independence and territorial integrity, but since that year the Japanese influence has grown in extent and power until finally today Korea faces, in the abdication of the present emperor, the final extinction of her claims to recognition as an independent state, for the installation of a nominal emperor selected by the statesmen of Japan seems to indicate that Korea is to come wholly and entirely under the sway of the Japanese.

There are four aspirants to throne. The crown prince is regarded as incompetent. Prince Pak Yun Ho, who is supposed to be supported by Marquis Ito and who recently has been brought from exile, is pro-Japanese, as is Prince Yi Cheung Yong, another exile who has been awaiting developments at Fusan since July 14.

Viscount Hayashi, the Japanese foreign minister, left Tokyo a few days ago for Seoul to untangle the knot caused by this latest of Korean intrigues, and there was reason to believe that his visit would bring about a radical change in the situation.

PERRYTON.

Miss Mary Hillman, of Newark, returned missionary from Korea, after 22 years spent in that mission field, lectured at Pleasant Valley M. E. church Sunday forenoon and afternoon, to large and enthusiastic audiences. She also lectured at Perryton M. E. church Sunday night to a large and highly delighted audience. She is much above the average, and highly entertaining in her manner.

Quarterly meeting will be held at Pleasant Valley M. E. church Sunday July 27, at 2 o'clock p. m. Quarterly conference will be held Monday morning at 9 o'clock, July 28.

OLD VETERAN WALKS ENTIRE DISTANCE FROM WASHINGTON

Prefers to Die at the Infirmary and Surprises Officials
by Coming in After Having Been Comfortably
Located at Washington Soldiers Home.

John Prior, an old resident of Licking County, and a former member of Co. D, Thirtieth O. V. I., who for several years past has been an inmate of the Licking County Infirmary, sometime ago expressed the wish that he could be admitted to a soldier's home, and that he could die happy there. Mr. A. Norris, one of the directors of the infirmary learning of his desire, interested himself and finally had him admitted to the Soldiers' Home at Washington. Mr. Norris accompanied him to Washington, and after seeing him comfortably installed in the home returned.

It seems, however, that Prior soon became dissatisfied, and he came away from the home in June, and to the surprise of everyone walked into the Licking County Infirmary yesterday, having walked every step of the way from Washington, notwithstanding the fact that he is 65 years old. The old soldier said that they were all insane at the home and that he would prefer to remain in the infirmary. Mr. Norris has written to the governor of the home at Washington asking him to advise him as to what steps to take to have him returned to the home.

INVESTIGATION

By Board of Inquiry as to Cause of
Explosion on the Battleship
Georgia.

Boston, July 18.—The report of the board of inquiry which is investigating the disaster on the battleship Georgia, will be forwarded to Washington today. From unofficial sources it is learned that several members of the board expressed the opinion that the accident was due not to a spark, but to spontaneous combustion of the cases generated by extreme rapid firing.

The crew in the turret was straining every nerve to break the record for quick work, and the close interior of the steel box was filled with highly inflammable vapors, generated by the discharge of the big gun. This explanation has practically been forced upon the board as a minute search has failed to discover any evidence in support of the spark theory.

There is no change today in the condition of the injured. The death list remains at 9.

HUNDRED DESERTERS FROM A BATTLESHIP

Norfolk, Va., July 18.—During the past few weeks 100 deserters have been listed and advertised from the battleship Minnesota, one of the war ships in Hampton roads. The local police were Tuesday notified of 15 deserters.

SKEPTICAL Are Londoners Concerned Reported Theatrical Merger.

London, July 18.—London theatrical managers are very skeptical concerning the reported international theatrical merger which Klaw & Erlanger are preparing plans for. Berthold Tree and George Edwardes declared that as far as they personally were concerned there is no truth in the report. Mr. Tree said as to his being a member of the syndicate the suggestion was preposterous. Cyril Maude declared that he was absolutely in the dark and that Mr. Frohman, whom he saw just before the latter sailed for New York, had said nothing to him about it.

Knights of the Maccabees.

Detroit, July 18.—The supreme tent, Knights of the Maccabees of the World, elected its officers as follows: Supreme commander, D. P. Markey, Port Huron, Mich.; supreme lieutenant commander, M. F. Cardinal Merry del Val.

Cardinal Raphael Merry del Val, the pontifical secretary to the Pope, was born in London on October 10, 1865. He is officially considered however as being born in Spain, as his father was at the time of the boy's birth secretary to the Spanish embassy in London. Cardinal Merry del Val was educated in England and attended both Ushaw and Durham colleges. He speaks French, German, Spanish, Italian and English, and is considered one of the best informed diplomats in Europe. He is very influential with the Pope, who depends much on his advice in regards to affairs of state and church outside of Italy. He has a magnificent apartment in the Vatican itself and is in almost daily attendance on the Pope.

He Proved It.

"Young Muggins is a mollycoddle, all right."

"What makes you think so?"

"I called him one."

"And what did he say?"

"He said he didn't think that was a nice term to apply to him and added that he felt quite vexed with me."

Carl Hau Is Unwilling to Explain
Many of His Actions.

NOW ON TRIAL FOR MURDER

Formerly a Professor of Law in a Washington University and Charged With the Death of His Mother-in-Law, a Wealthy Woman of Baden-Baden—the Day's Testimony.

Karlsruhe, Germany, July 18.—A case that has attracted attention in two continents came up for trial here when Carl Hau, formerly professor of Roman law in George Washington university, Washington, D. C., was brought before the bar on the charge of having murdered his mother-in-law, Frau Molitor, a wealthy resident of Baden-Baden, in that city, on Nov. 6 last.

Hau practiced law in Washington city up to the time of his going abroad about one year ago. After the alleged murder he fled to London, where he was taken into custody. Later he was returned to Germany, and as many people claimed he was insane, the question of his mental condition was thoroughly investigated, with the result that he was formally declared to be right in his mind. Mrs. Hau committed suicide by drowning in June of this year, leaving a farewell letter saying she could no longer bear the sorrow of living apart from her husband.

Following the selection of a jury, which occupied only 10 minutes, the presiding judge put Hau through a searching examination that lasted several hours.

Hau was unable or unwilling to explain many of his actions, with regard to which the prosecution has pursued a careful investigation, such as the wearing of disguises and their secret disposition and the sending of telegrams to his wife's mother to come to Paris, and refused also to answer various questions regarding his domestic relations, although repeatedly warned by the judge that he was jeopardizing his case.

Olga Molitor, who was with her mother when the murder was committed, told of the shooting, which was done by a man, who ran away so quickly that she was unable to recognize him, in the darkness. The collar of the man's coat was turned up, but the coat she recognized as one similar to that worn by Hau. She did not see the man's face. This witness, who has been mentioned as having had relations with Hau that caused jealousy on the part of Mrs. Hau, gave an emphatic denial to such report.

Altogether, the testimony was considered very unfavorable to the defendant, the judge declaring that one provision of the will left by Hau's wife, who recently committed suicide, which he read and which provided that her little daughter should assume another name, indicated that Mrs. Hau was convinced of her husband's guilt.

NEWARK NUMBER OF OHIO MAGAZINE NOW PUBLISHED

The Newark number of the Ohio Magazine for July is out.

It is almost wholly devoted to the exploitation of Newark and Licking county and their varied interests. The matter is gotten up in good style with no suggestion of the usual advertising write up and should be interesting to all who will peruse its pages. The magazine contains of course, other matter, which is bright and spicy. The Japanese question is treated in a broad and liberal way, and the argument is strictly logical.

The Buckeye Philosopher gets off quite a number of sharp and pertinent sayings and the humor is of a high standard.

The cover is a work of art and the subject treated is right in touch with the times and prevailing weather.

The magazine is a high class publication and deserves the patronage of the people.

Articles are contributed on Newark and Licking County history, considered, by Judge E. M. P. Brister, Licking County Natural Gas Field, Frederick M. Black, Newark a City of Homes and Health, Prof. J. D. Simkins; Financial Institutions of Licking County, C. H. Norpell; Industrial Newark, C. L. Spencer; Interests of Licking County, F. H. Ballou.

The articles are liberally illustrated by photographs by Hempsted, Smith and Miss Emma Spencer.

The Ohio Magazine will be on sale at the local news stands within a day or two.

Charles W. Manville, carpenter, of 24 South Fourth street, Newark, O., says: "I have found Doan's Kidney Pills to be all that they are claimed to be. They cured me of a bad case of backache and inaction of the kidneys, brought on by the grip. I was laid up for some time. My kidneys seemed to be sluggish and the secretions were irregular. At the same time I suffered terribly with pain in the back over the kidneys. There was a constant, dull aching varied with sharp twinges of pain that would strike me at all hours of the day and night. I tried different remedies without effect and had nearly given up hope when I began using Doan's Kidney Pills, bought at Cravens' drug store. The result was a cure and a decidedly lasting cure. In 1896 I told of my case in a public statement and now that eight years have passed I can point to my own experience and say that Doan's Kidney Pills make permanent cures."

A large crowd witnessed the local team defeat the Mansfield Tigers at Wehrle Park Wednesday afternoon. It was ladies day and the fair sex were out in force it being estimated that about 200 occupied seats in the grand stand and nearly all took part in the rooting for the Molders.

The game was a fast one from start to finish, the Tigers starting out with a lead of two scores and four hits in the first half. Newark was not effective until the fourth when the cheese man walked and was sacrificed to second by Haval. Murray drew a pass and Gyg stepped to the front and smashed a two bagger, scoring the two free pass boys. He scored on Pearce's drive to deep center. This was the only scoring by the locals and it was enough to win the game, as the Tigers never scored after the first frame.

Mansfield got away with a good start, piling up two scores in the first. This did not dishearten the Molders for a single minute and Big Jack settled down to business and kept them guessing. True they piled up a few hits and fattened their batting score somewhat but it did not count in the get away as the whitewash man kept piling up the little round numbers until Mansfield went down in the final count.

Mr. Smink again handed out a few hot ones that were questioned by players and spectators alike. He ought to purchase a pair of glasses or magnifying glass of some kind to be able to distinguish between a ball and strike. Catcher Breymaier questioned a close decision in the fourth which precipitated a discussion and ended in his calling his ump a bad name. He was promptly fired from the game and Riley substituted. He knocked a couple of infield bingles, struck out once and proved himself a good man behind the stick.

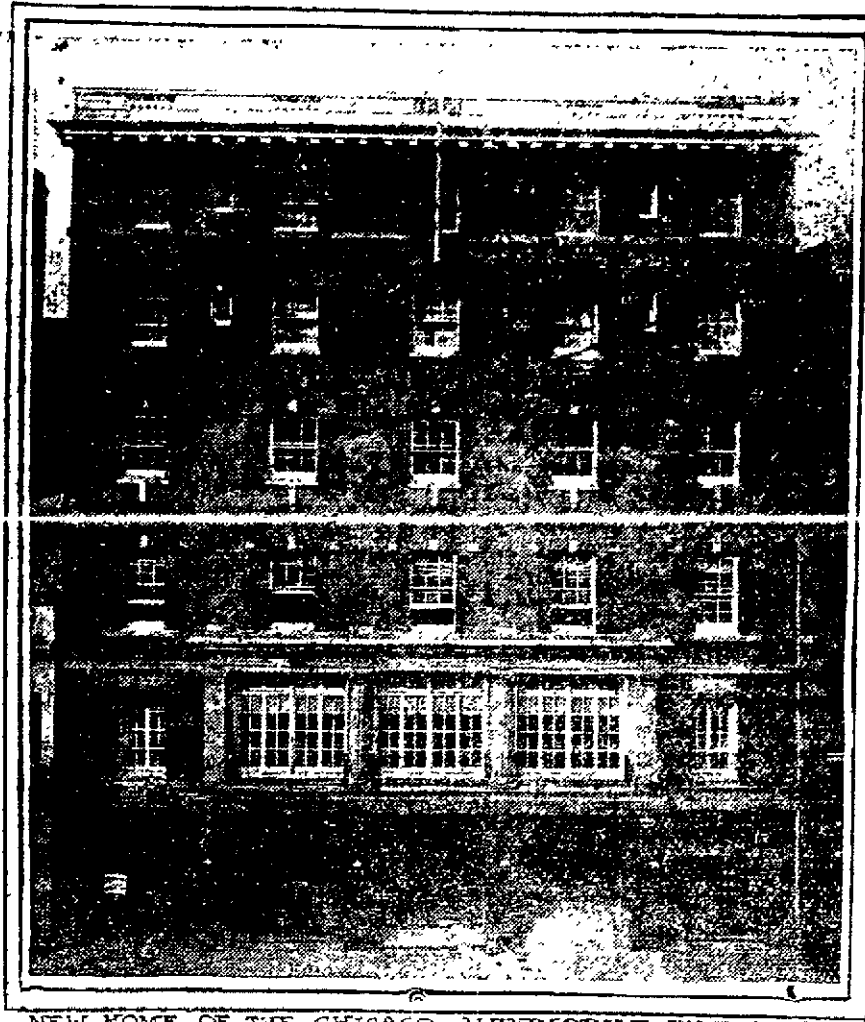

In the last half of the sixth Mr. Smink received a hot foul tip which bent his mask and compelled him to use a bat to straighten it out.

Murray made a running one-handed catch in the ninth pulling down King's fly to center that drew the plaudits of the crowd.

In the ninth after Delehanly had walked Reynolds hit a hot double which landed Del on third corner. There was only one down and it looked bad for the locals, but Asher was equal to the occasion and fanned the next two up.

Mansfield felt good for awhile but

lost their confidence long before the game was half over. They were lucky to break even on the series as there is no doubt but what Newark has them outclassed.

The Tigers two runs were made thusly: Biery hit one down the line to Gyg, who retired him at first. Speas drew a double and it was followed with a repeater by Drake. Speas scoring. Ducky scored on Tibbitt's single and was followed by King with a single, who died at second on a double play by Murray to Gyg. The score:

WON'T STAY PUT.

The witty questions of the day
"What is in the women's club
On hand without a single doubt
That there is possibly a rub.
Fix to the answer good and strong
And with the very best intent
But here's the only blunder hit—
They don't stay settled with a cent.

It seems so easy as they sit
And listen to the words that flow
From lips quite red and fuming
To make the bawky systems so.
They know if they were only men
And sat in congress for a day
They'd turn the old works upside down
And know that they had earned their pay.

The tariff is an open book;
They'd lower it or let it stand
Or raise it high, and in some way
Do something very fine and grand.
They read their papers pleasantly
And tell the men folks how to act.
Their papers filled with arguments
They planned from some small man
made tract.

It's just like falling off a log
The links to straighten and make clear—
The things that once looked hard enough
And were a trifle out of gear.
And doubtless they have got the dope
Correctly mixed to some extent.
But here's the trouble with the thing—
They don't stay settled worth a cent.

Had Had Enough of That.

"Willie didn't run away to sea as he threatened."
"No. When he found the boat was being fitted up for a whaling expedition, he backed out. He had too many vivid recollections of whaling expeditions to the wood shed when he was a kid."

Chance For the Whited.
A bunch of Chickasaw maidens with big furs and presumably other charms not mentioned have banded together and pledged themselves only to accept white husbands when they dabble in the matrimonial lottery.

No doubt they can be accommodated if they are not too particular as to the kind. There are many men of more or less degrees of whiteness who would be wonderfully attracted by a proposal of that sort.

The romance of owning a half section of choice land would appeal to them strongly, even though it were encumbered by a dusky bride. They feel that they could do quite a neat job of sitting in the shade and letting the women hoe the corn and bring in the kindling as the reddest brave that ever went to sleep on the shady side of a haystack.

Heard It First.
"Mister, you dropped something."
"Mercy me, what could it have been?" asked the startled Englishman,

GOVERNORS OF OHIO

RUTHERFORD B. HAYES—1868-1872—1876-1877.

Rutherford B. Hayes has the distinction of being the only governor of Ohio serving three terms, two in succession, 1868-72, and one 1876-77. He was born in Delaware, O., in 1822, his parents being from New England. After attending the common schools he studied at Norwalk, O., in Isaac Webb's school at Middletown, Conn., Kenyon college, studying law with Thomas Sparrow of Columbus, O., and graduating from the Law school of Harvard university. He began the practice of law at Fremont, which place was his home until his death, Jan. 17, 1893. Mr. Hayes' military career was exceptionally brilliant, beginning as captain of the company composed of the Cincinnati federal club and leaving the office of general to enter congress. In 1867 he defeated Judge Thurman for the field of governor of Ohio and was re-elected in 1869. In 1875 he defeated Governor William Allen, and the financial issue brought forth in this campaign caused his nomination to the presidency at Cincinnati, June 14, 1876. It was during his administration that the Federal troops were withdrawn from the southern states.

For Women's Fine Garments

Suits, skirts, shirt waists—starched garments of all kinds—that fairly beam with snowy beauty and freshness, will be the rule, rather than the exception, if they are starched with the genuine

KINGSFORD'S OSWEGO Silver Gloss Starch

No starch ever has or ever will equal this for delicacy and fineness of finish. Garments starched with it keep their shape longer, are more pliable, and have a newer and clearer appearance than with any other. Can't injure goods; goes farther because of superior strength, hence most economical. Doesn't stick to the iron. The standard of quality for over half a century.

For general use best for all kinds of starching. For light starching unequalled as a cold water starch, requiring no boiling. Made for over fifty years at Oswego. All grocers, in full-weight packages. T. KINGSFORD & SON, OSWEGO, N. Y. NATIONAL STARCH COMPANY, SUCCESSORS.

NEW QUESTIONS FOR TEACHERS

There Are a Great Many Brain Puzzlers in the List.

MADE UP BY STATE COMMISSIONER

Examination Tests for Teachers in Elementary Schools—By Those Answering to These Questions Those Who Desire to Teach Show Whether They are Grounded in the Rudiments of Education.

Following is the list of questions as prepared under direction of the state commissioner of public schools, and submitted at the county examination for teachers July 6 for elementary school certificates:

GRAMMAR.

1. We should justly ridicule a general, who, just before an action, should suddenly disarm his men, and putting into the hands of all of them a Bible, should order them, thus equipped, to march against the enemy. Here we plainly see the folly of calling in the Bible to support the sword; but is it not as great a folly to call in the sword to support the Bible? Our Savior divided force from reason, and let no man presume to join what God hath put asunder. When we combat error with any other weapon than argument, we err more than those whom we attack.—Colton.

The first eight questions are based upon the selection quoted above.

1. Point out all subordinate clauses (naming only subject and predicate) and classify them (as adjective, objective or adverbial).

2. Give the syntax of four infinitives.

3. Explain all participial uses.

4. Select ten adverbs and tell to what class each belongs.

5. Give ten mood and tense of each of the following words: should (12), presume (13), hath put (14).

6. Classify each sentence according to (a) use and (b) form.

7. Select one appositive; one verb in the ancient style; one ellipsis; two abstract nouns.

8. Parse in full, equipped (6), in (8), than (16).

9. "Who gave you this candy?" asked the boy who had just come up, helping himself to as many pieces as his mouth would accommodate. Classify all of the pronouns in the above sentence.

10. Illustrate phrases with respect to use and classify each class.

THEORY AND PRACTICE.

1. Explain the maxim, "The primary principle of education is self activity."

2. Discuss the relative values of punishment and of reward as school-room motives.

3. How does a device differ from a method? Name some devices used in teaching geography.

4. Mention, in their respective order, five topics of hygiene that you would teach to pupils in the lower grades.

5. State the principle that should govern the infliction of punishment.

6. Give the characteristics of education during the Middle Ages.

7. What faculties of the child are predominantly appealed to during the first years of instruction? The later years?

8. What are the officers of a school district in Ohio? What are their duties?

9. Your school should be the temperature of your school-room? Where no special apparatus is installed, what methods, in winter, would you employ to keep your school-room properly ventilated?

10. Name the founder and state the purpose of the kindergarten.

UNITED STATES HISTORY AND CIVIL GOVERNMENT.

1. Which was the last English colony founded in America? Give the founder's name, date of founding and purpose of the colony.

2. Give the names of the following Indian tribes: Cherokee, Pequot, Mohawks. What were usually the relations between the Jesuits and the Indians?

3. Name five acts of the British government that hastened the rebellion of the colonies.

4. Give an account of the engagements at Saratoga. Who was the commander of the colonial troops? Who were the real heroes of the battle?

5. Summarize the difficulties Washington encountered in undertaking the presidency.

6. What was the purpose and effect of the Embargo Act of 1807?

7. Give the names of several prominent champions of the cause of slavery, and the arguments they advanced to justify secession.

8. Name some causes of the financial panic of 1873.

9. How are presidential elections chosen? What determines the number of electors to which a state is entitled?

10. How many amendments have been made to the Constitution since the Civil War? What has been their general purpose?

SHAW'S VIEW OF IT.

Former Secretary of the Treasury Talks on Public Ownership.

Government Employees Never as Efficient as the Employees of Firms and Corporations—Tenure of Office in the Civil Service Breeds Slipshod Ways.

There are over 20,000 public servants, exclusive of presidential appointees, under the direct supervision of the department at the head of which I had the honor to temporarily preside. They are a good, conscientious, painstaking body of men and women, and yet if the treasury department were a private enterprise every whit as much work could be accomplished with a reduction of one-third in number and one-fourth in the salary of those remaining. This condition is not to be charged to civil service rules and regulations, of which I most heartily approve, but to the inherent nature of public service.

Some years ago while walking through Lincoln park, Chicago, I noticed a group of twenty-five or more men pushing lawn mowers. Stopping to make some inquiry of a policeman, I innocently asked why the city did not use mowers drawn by horses. I shall now remember his reply: "I guess you don't live in Chicago, do you? How long do you think the city administration would live if it moved the park with horses?"

The cornerstone of the city hall in Philadelphia was laid on July 4, 1874, but the building was not completed until the first year of the present century. The capitol at Albany was begun in the sixties. It was far enough advanced to be the scene of an inaugural ball in the seventies and was completed, all save the tower, for which the foundation was found, in sufficient, in 1899. In the meantime the two great parties alternated in office. In control, I am told in one or more instances four generations performed work on the building.

The appropriation for the public building in Chicago was signed by Grover Cleveland, and about sixty days ago I made final settlement and signed the draft for the last payment and was then able to answer public criticism because the work had progressed so slowly with record proof that it had been about as expeditiously built as most structures of its character erected by the government.

The Harlem river, extending from the Hudson to the East river, eight miles in length, was dredged by the government to a depth of fifteen feet in seventeen years.

Now note a few instances of private enterprise. In 1904 the Pennsylvania railroad began the construction of twin tunnels through the mud beneath the Hudson river and four tunnels extending thence under the city of New York and beneath the East river to Long Island City, and now at the end of two years feels confident that its fifteen miles of nineteen foot water-proof tunnel will be completed and in use within the contract period of four years.

John B. McDonald began work on the subways of New York in March, 1900, and had nine miles with double track and stations in operation in four years and seven months.

These instances illustrate the natural, the necessary and the inevitable differences between private enterprise and government work and might be multiplied indefinitely.

I do not know that I can explain the reasons why these differences must always exist better than to recite a very commonplace experience. I received a telegram some days ago from the cashier of a little bank in which I am interested. It read: "I am offered \$42.50 an acre for your East Boyer land. What shall I do?" I answered: "You know better than I do. Do as you think best." To this he replied, "I think the land is well sold." These telegrams were not even preserved. But if I had been acting for the government I would have had the land advertised for sale. I would have sent a commission to examine and appraise it. I would have had not less than two subordinate officers of the department go through all the papers and submit their recommendations. I would then have been careful to preserve a complete record of everything, lest on some unhappy day after my retirement and perhaps after my demise an investigating committee, appointed perhaps by an adverse congress, would make inquiry and, failing to find positive proof of honesty, would make a report filled with suggestions of doubt, and that would be quite enough to brand my name with shame. My subordinates took the same precautions and safeguarded their reputations with an equal amount of red tape whenever they sell an old horse or worn-out piece of furniture.

It is the appropriate function of the government to safeguard the individual and to see that the game of business is fairly played, that the cards are held above the table and that every body is given a square deal. It is not the appropriate function of the government to sit in the game.

Control Easier Than Operation.

The idea for municipal ownership seems logical in communities that appear to be unable to control public utility corporations. But it comes with all their law making and law enforcing power cannot cope with corporations which operate by their sufferance, would they be more able to manage those companies themselves?—Kansas City Star.

STATE SECRETARY
WANTS TO KNOWFROM CHAIRMEN OF POLITICAL
COMMITTEES WHICH ARE
VALID NOMINATIONS.Marietta Center of a Severe Storm--
Other News of Ohio Here Told In
Paragraphs.

Columbus, O., July 18.—Secretary of State Thompson called today to the chairmen of the Republican and Democratic state committees, advising them of the conflicts in their party organizations regarding nominations for appointments to county election boards, and suggesting that their organizations should advise him at once as to which are the valid nominations in those cases. Chairman C. A. Klobb of the Democratic state committee anticipated the request by calling his committee to meet in Columbus on July 22. The Republican state central committee is under call to meet in Columbus on July 27.

Destructive Storm.
Marietta, O., July 18.—Marietta was the center of a storm which did \$50,000 damage in Washington county. A half mile back of town there was a cloudburst, flooding the suburb of Glendale. Water rushed through the houses five feet deep and the inhabitants fled to the upper stories to save themselves. The Marietta Chair company was flooded and their loss alone is \$10,000. Cattle on neighboring dairy farms were drowned in large numbers, horses were killed by lightning, crops were completely washed away, and all railroads are washed out.

Holds Action Illegal.
Columbus, O., July 18.—Because William A. Metcalf spends a large portion of his time in Sidney the board of review there attempted to put him on the duplicate for \$15,000 of personal property. The attorney general's department advised prosecuting Attorney Charles C. Marshall that the action is illegal, because Mr. Metcalf and his family reside in Toledo, and except in the case of mercantile stocks and goods of that character all personal property is taxable in the county where the owner resides.

Seats Gave Way.
Cleveland, O., July 18.—A section of seats gave way at a show in the circus grounds, precipitating 100 people to the ground. No one was killed, but from 15 to 20 persons sustained injuries of a more or less serious nature. Miss Kittie Boyle, who suffered a broken leg, and Mrs. Hyle, injured internally, are among those seriously hurt. A disastrous panic was averted by the band, which played throughout the accident and diverted attention from that quarter.

Negro Used His Teeth.
Steubenville, O., July 18.—William Young, a negro, was fatally shot by an officer at Long Run. Young had started a fight with negroes in a shack here, and when he attempted to bite one of them several fled in terror, believing his teeth poisonous. Others grabbed Young and threw him out of the shack, but not until he had shot a helpless child. When officers came he ran, but was felled at Long Run.

Refused to Wed; Killed.
Cleveland, O., July 18.—Marietta Dennon, 18, shot and instantly killed Raffaele Darbato, 19, upon the street. They were to have been married July 2, according to the story of the girl. She says he refused. When Darbato went to her home she met him and shot without warning. "I was right and I feel no sorrow," she said, after being arrested.

Back Taxes.
Findlay, O., July 18.—The Northwestern Ohio Natural Gas company paid into the Hancock county treasury \$1,650 back taxes because of the undervaluation of its lines through Hancock county. Within the past year Prosecutor David has secured \$19,500 delinquent taxes from three different Standard companies.

Wants Order Set Aside.
Columbus, O., July 18.—The case of Mary J. Lingafelter of Licking county, who was convicted of forgery, was brought to the supreme court on error for the second time. The circuit court has ordered a new trial and the state wants that order set aside.

Shot Boy; Escaped.
Portsmouth, O., July 18.—Because he was reprimanded for tying knots in the clothes of swimming boys, John Hale, 15, deliberately blazed away with a shotgun at Dan Yost, wounding him in the back. The boy escaped to Kentucky.

Suicided in His Store.
London, O., July 18.—The dead body of Henry Fobbe, 40, senior member of the merchant tailors' firm of Fobbe & Flynn, was found in the firm's store. Fobbe had taken cyanide acid. No cause has been assigned for the deed.

Another Fourth Victim.
Columbus, O., July 18.—Thomas Davis, 65, who exploded a giant fire-cracker in his hand on the Fourth died of lockjaw at his home here.

Big Steamer Launched.
Lorain, O., July 18.—The steamer William H. Mills, one of the largest on the lakes, was launched here.

Adam looked out for number 1, and his descendant have been doing it ever since.

The man who has no music in his soul might try a shoe horn.

GRANVILLE NEWS

Granville, July 18.—The village council met in adjourned session on Wednesday night with Mayor Jones in the chair and members Hulshizer, Norris, Barrick, Thomas and Davies present. The meeting was held for the special purpose of considering the question between the Natural Gas company and the village of Granville in reference to free gas. As will be remembered, the gas company shut the gas off from the water works last December, since which time every effort has been made to adjust the matter with the gas company, but to no avail. A committee was appointed by council to employ an attorney and take the matter into the courts, where it is hoped that the matter can be satisfactorily settled in the interest of both parties.

Council ordered the water wagon taken off the street, and repealed the ordinance under which it was operating. This was done on account of the insufficiency of the assessment to pay the cost of running the wagon for some time past, and on account of the refusal of a great many of those who are assessed refusing to pay, and so far the council has not been able to get returns on their special assessments. The council, in order to pay the May and June assessments and thus far in this month the cost of running the wagon, were obliged to draw nearly \$100 from the contingent fund. They were up against a hard proposition and could do nothing else but repeal the ordinance.

E. W. Brinkley was elected to fill the vacancy in council occasioned by the resignation of J. L. Lewis. Council will meet again on Thursday evening, July 25.

Mrs. William Ackley attended the funeral of her niece, Miss Clara DeFrance at Painesville, Thursday.

After a short visit with friends and relatives here, Mrs. C. M. Norton has returned to her home in Mansfield.

William G. Freeman, a prosperous and well known farmer of Lucas county, who has been visiting in Granville and vicinity for some days has returned home.

Carl Mason, a prominent young business man of Marion, O., has been visiting here for the past several days.

Mr. and Mrs. J. S. Jones and Miss Laura Beidler and Mr. and Mrs. Rice of Salt Lake City, who have been guests at the Jones home for some time, left a few days ago for a trip on the St. Lawrence and through Canada. They expect to be gone some time.

Mr. and Mrs. F. M. Brown of Hillsboro, O., who have been here for a few days, visiting friends, left for Columbus Thursday morning, where they will visit their daughter, Mrs. D. M. Green for a few days.

Prof. C. L. Williams will preach at the Baptist church in Columbus Sunday, and the following four Sundays will preach at Middle Bass Island.

Thomas Owens, a well known and popular young business man of Urbana, was in the village for a short time on Wednesday, shaking hands with old friends.

Dr. E. W. Hunt, president of Denison University, will preach at Middle Bass Island, Sunday.

After a pleasant visit with friends here Mrs. S. B. Ralston will make a short visit with relatives in Columbus before returning to her home in Cincinnati.

START FROM COLUMBUS.
Columbus, O., July 18.—A big crowd saw the Gliddens start today's 151 mile run. It is believed that more than one of the 58 cars which started this morning will bite the dust by this evening. Today it is predicted that not over 20 will finish the tour. Several cars were slightly disabled between Columbus and Newark. It now seems probable the Pittsburg club will win the trophy.

PILOT CAR LOST.
(Special to Advocate.)

Coshocton, O., July 18.—The pilot car of the Gliddens tourists got lost between Coshocton and Newark this morning, taking the wrong turn at Painesville and was wandering around in the hills. The tourists got on all right and came here ahead. Fifty-eight cars, all well and happy, went through at noon, stopping for lunch. They say today was the best run of the tour so far.

AUTOS COLLIDE.
New York, July 18.—One man is dead, two dying and three men are supposed to be in some hospital badly injured as a result of a collision of two big automobiles last night.

BODY EXHUMED
ORGANS REMOVED

Clinton, Ill., July 18.—The body of Mrs. Pot Magill was exhumed last night in the custodian's little cottage at Woodlawn cemetery. The vital organs were removed, sealed in glass jars and placed in care of Chicago specialists. Then the body was re-placed in the casket and the grave re-filled. Extra deputies guarded the gate and patrolled the place, allowing no one to enter the graveyard.

Supreme Prize Court.
The Hague, July 18.—Efforts are being made to bring about an understanding with regard to the British and German propositions for a supreme prize court, through an intermediary Italian suggestion, which provides for a permanent tribunal by grouping the states according to their tonnage and allowing them proportional rights in the appointment of the judges comprising the tribunal. This court, it is suggested, should include two admirals, to be appointed by the belligerents, the admirals to be present as advisers and not as judges.

JACKSONTOWN.
The Ladies Musical club expect to give a barn box social in the near future in the new barn being built by L. C. Davis, at his home west of town. Every one is most cordially invited to come, the ladies bringing boxes. Other refreshments will also be served. Watch for the date of this social.
